# Introduction

**Chemistry Moment Resources** was registered to producing high quality products in conjunction with our clients, we offer vast experience in wedding and corporate photography and videography as well as in diverse areas including technical and industrial photography / videography, corporate portraiture and instructional and market material.

We take a personal approach from initial consultation to final product presentation and offer solution and creative ideas to achieve the best for your vision or wedding.

We are reliable,flexible,diverse and strive to create long-lasting client relationships by using the latest digital technology,we also can provide a service that can meet the tightest deadlines whilst not sacrificing quality.

To indicate the scope of your business to potential client,who may never have seen your operations directly,our mission is to produce powerful images that impress upon the viewer the size and relevance of your client's business as well as the personality and knowledge of your workforce.

## Vision

**Our Vision** is to grow our production team in order to offer good service,In a world of new & complex technology, we strive to make our services easy to understand. Once you choose a service from the navigation,you will be taken to an explanation of that service.

## Mission Statement

**Our Sole Mission** is to provide quality video coverage with the latest equipments, technology and techniques to ensure complete customer satisfaction. Existing customers refer most of our new clients to us and we always get repeat orders from them
